
Policy Statement

Environmental Policy

Scorpion Oceanics is committed to ensuring that it conducts its activities in a responsible manner and recognise the need to continually refine and improve these activities so far as is responsibly practicable, to reduce the effects on the environment and the community in which it operates.

To achieve this, the company will ensure:

- Its compliance with all relevant environmental legislation & regulations.
- That it contributes wherever possible to the economical use of energy through good house-keeping policies.
- It minimises emissions and waste and their environmental effects.
- That it identifies material and processes that reduce the risk of pollution.
- It contributes wherever possible and economical use of materials, especially through the use of recyclable materials.
- That wherever possible and economically acceptable to customer and company alike, all packing materials used are recyclable or returnable.
- That all employees are made aware of environmental issues through information and training, relevant to their roles.
